December 28, 2006

Dear Circuit Rider Marketing, LLC.,

I wanted to write to you to share my pleasure with the Circuit Rider units that you installed. I was not sure that these units would work. After having them installed, the electrical savings we have experienced has been awesome! The last store that had these CR-Max units installed has saved us more that 20% of kilowatt usage. I decided to pull some of the energy bills for this store to compare, and did I find a great reduction in electrical usage.

More than 20% is really great, especially in my stores! Since these Domino's Pizza stores use so much electricity, these units sure did the job for savings. We have a few more stores to complete in our company and we cannot wait.

Thank you for your time. I just wanted to share with you guys what a difference they have made.

A handwritten signature in black ink, appearing to read "A. J. L.", is written below the text.
