John Novar  
Green Energy Products  
13017 SW 83 Ave.  
Pinecrest, FL 33156

Dear John:

I just wanted to thank you and the rest of the Green-Energy-Products team for the work that you have done replacing my old circuit panel and GESPER. My family and I are enjoying the tankless water heater because it really generates all the hot water our family of three need and saves me on my electric bill because it is only on when we use the hot water and not all the time like my old hot water system that ran consistently. I also want to thank you for suggesting the HY-Tech thermal Paint, it has drastically reduced my attic temp by 10 - 15 degrees so that in turn keeps the AC off a lot longer.

Being environmentally responsible is something that I feel is very important for all of us to work on. Working with you has been a pleasure. I appreciate the time and attention to detail you've provide throughout the process. The GESPER and the tankless water heater has so far performed as promised, with a 20% reduction in my energy bills., thanks so much again.

Sincerely,

*Newton B. Williams*
